NORM GEISLER
Legacy Initiative

The premiere apologist of the 20th century, Dr. Norman Geisler defended the relationship of faith and reason. His work has set a foundation for the evangelical church to preserve the historical Christian Faith. Writing over a hundred books that have already been translated into fourteen languages, founding two seminaries, and discipling a generation of Christian leaders, Norm has left tools and resources for generations of Christians around the globe.

THIS INITIATIVE SEEKS TO
CONTINUE THAT LEGACY.

"His resources to me were and are a goldmine."

- Ravi Zacharias

"His books are the type that if every ten years somebody takes and updates them, they'll be relevant until eternity."

- Josh McDowell

"According to today's statistics around seventy-percent of church-going high school students leave the Christian faith when they graduate and they go on to college. Now, this doesn't have to happen if students were given a solid foundation of Biblical truth, and Dr. Geisler has spent a lifetime devoted to helping answer the very questions these students will face."

- John Ankerberg

"He's opened the door to the possibilities of Christian belief."

- J Warner Wallace
